## Wearables

Full-shift wearable data capture & comfort.

8675i

8680i

RS8690i

Ergonomic Bluetooth and corded ring scanners.

CT40 Wearable

CT30 XP Wearable

CW45 Wearable

Wearable mobile computers with wrist and arm straps.

Scanners

Terminals

Printers

Mobile, desktop & industrial  
barcode label printing.

Mobile

RP2F Series                      LNX3                      RP4F Series

Lightweight mobile printing at the point of application.

Desktop

PC45D                      PC45T                      PC42D                      PC42T

Compact, easy-to-use printers for low to medium print volumes.

Industrial

PX65/45                      PM45                      PD45S/PD45                      PX940

Rugged printers for 24/7 high volume printing.

Round the Clock  
Reliability

Certified Labels  
& Printer Service

High-Quality Thermal  
Barcode Printing

Printers & Supplies

Honeywell designs their printers to offer easy deployment and error free barcode printing. Honeywell continues to build on top of its legacy brands like Intermec and Datamax-O’Neil with modern ultra rugged thermal printing for all applications.

Android Mobile Apps

Complete Honeywell Solution

Easy Deployment

## Smart Talk

Unified Enterprise Communications

Consumer devices and free messaging apps are not reliable or secure enough to withstand the demands of enterprise use. Honeywell Smart Talk is a device-agnostic unified workforce communications application that tackles the problem of fragmented communications, with enterprise-grade security for voice calling, text and media messaging, video, and user presence.

User & Group Messaging

Secure Push-To-Talk

Voice Over IP (VOIP) Calling

## Operational Intelligence

Device Visibility & Analytics

Device Chain of Custody

Access Control

Battery & Device Health

The Honeywell Operational Intelligence (OI) platform provides companies with valuable data-driven insights and analysis into device health and utilization. This enables IT teams to dig down into device problems, centrally monitor device health and usage, and proactively prevent downtime.

## Task Management

Voice-Assisted & Directed Work

Honeywell voice-assisted and voice-directed task management software enables mobile workers to perform tasks more safely, effectively, accurately, and hands-free. Unify hardware, software, and support into one cohesive solution with voice data inputs and feedback for more streamlined and efficient data collection processes.
